

Student Evaluation of Teaching (SET) for Akash Kumar

Summer Session I 2026 CSE 151A - ML: Learning Algorithms (Kumar, Akash)
Section 259324 [A00]

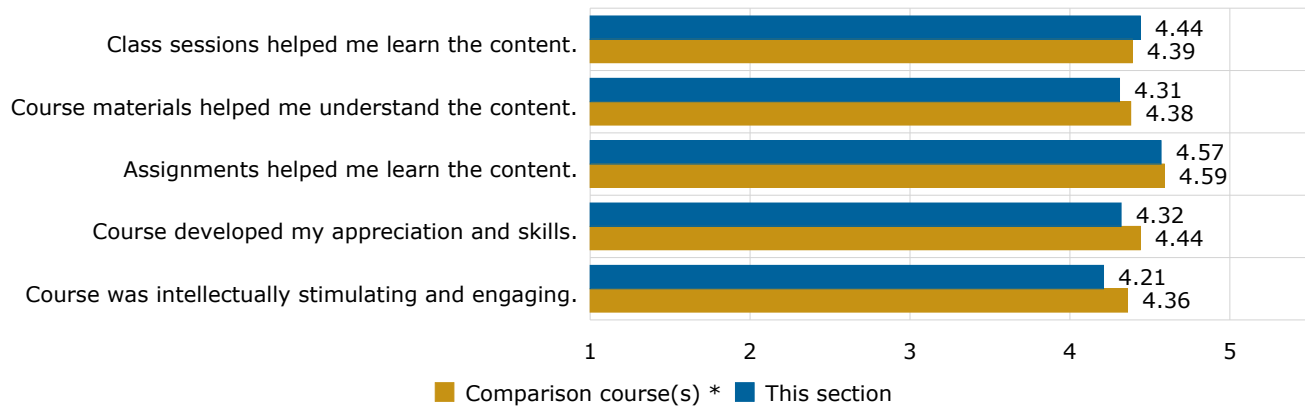

Enrollment: 36
Responses: 28 (77.78% response rate)

SUMMARY RESULTS

* Comparison courses used: All Computer Science and Engineering Summer Session I 2026 UD courses

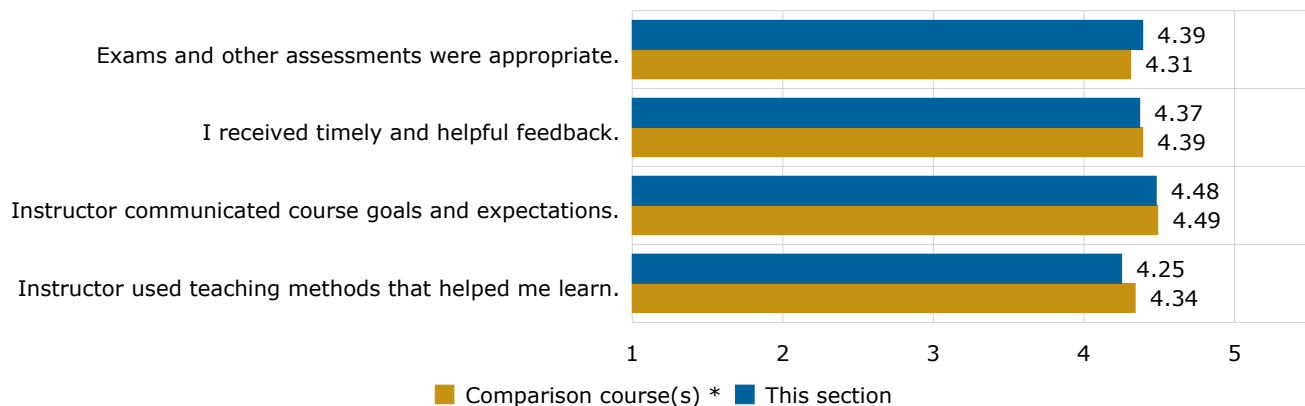

Student Learning

Class Mean: 4.37 (Agree) **Comparison Mean:** 4.43 (Agree)

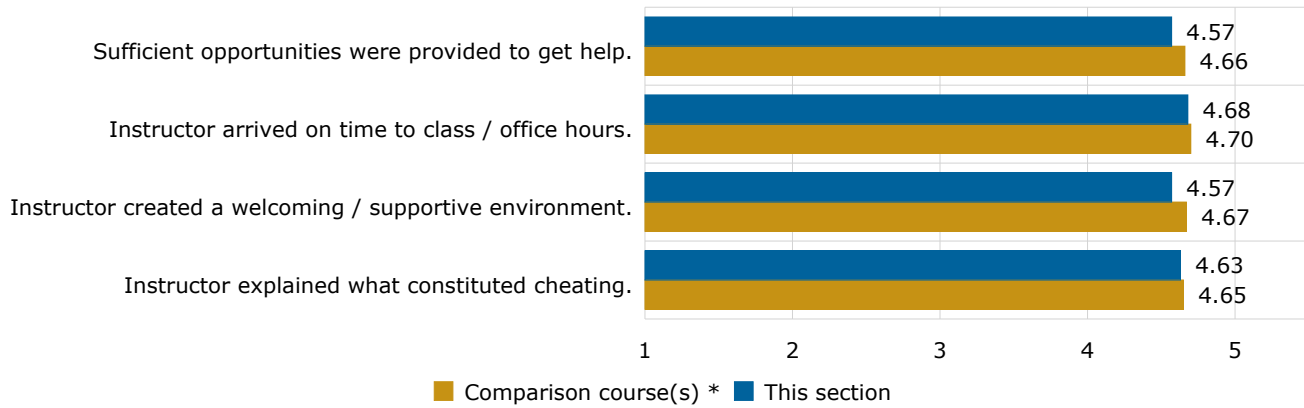

Course Structure

Class Mean: 4.37 (Agree) **Comparison Mean:** 4.38 (Agree)

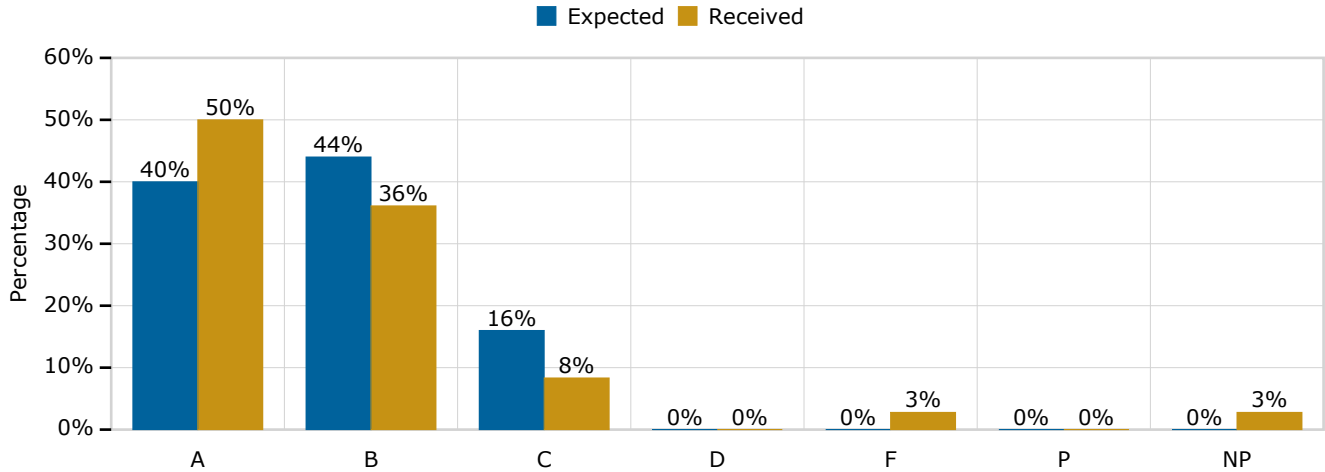

Class Environment

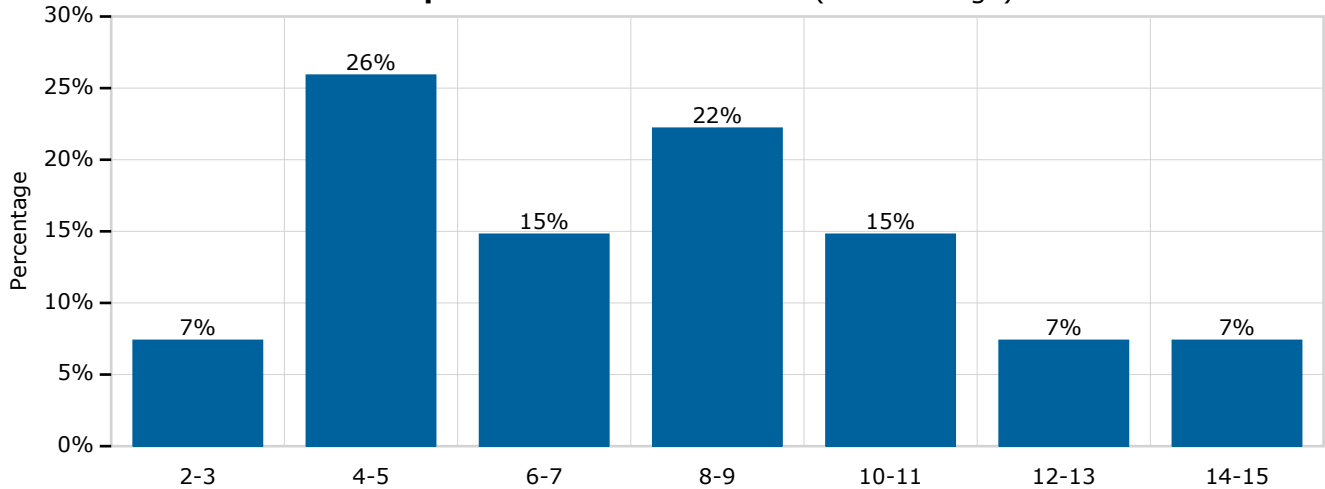

Class Mean: 4.61 (Strongly Agree) **Comparison Mean: 4.67 (Strongly Agree)**

Expected Grade (B average, 3.24, SET respondents) vs. Grade Received (B+ average, 3.34, all students)

Hours per week outside of class (8.26 average)

DETAILED RESULTS

Note: "% Positive" reflects responses of Strongly Agree or Agree; "% Negative" reflects Strongly Disagree or Disagree responses.

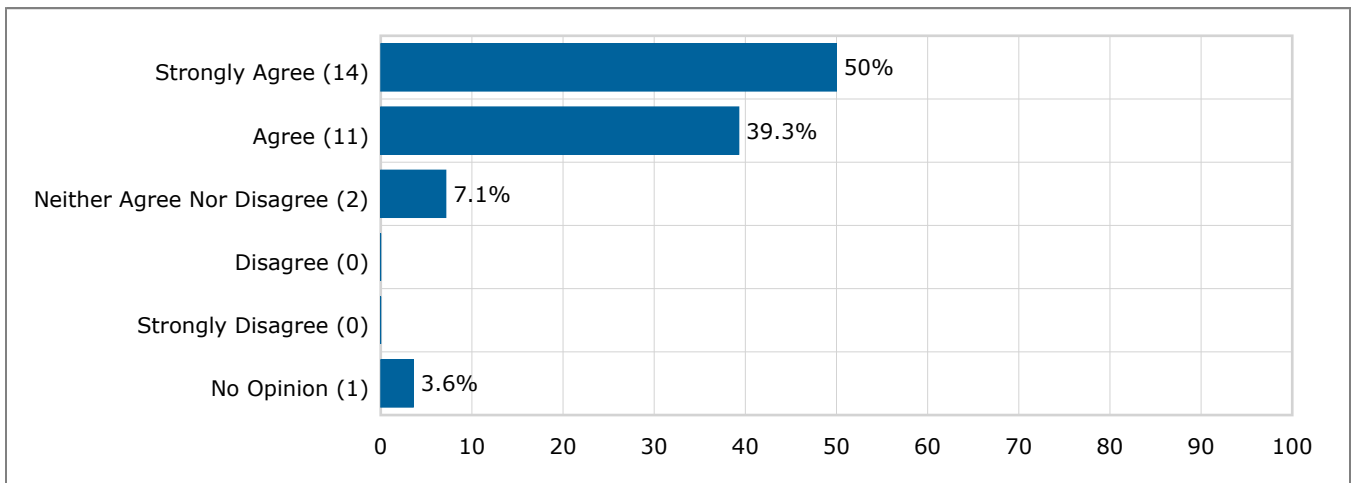

Scoring Methodology

A numerical value is assigned to each response in the standard Likert Scale used for evaluations: Strongly Agree (5), Agree (4), Neither Agree Nor Disagree (3), Disagree (2), Strongly Disagree (1). Responses marked "No Opinion/Not Applicable" are excluded from mean calculations.

Student Learning

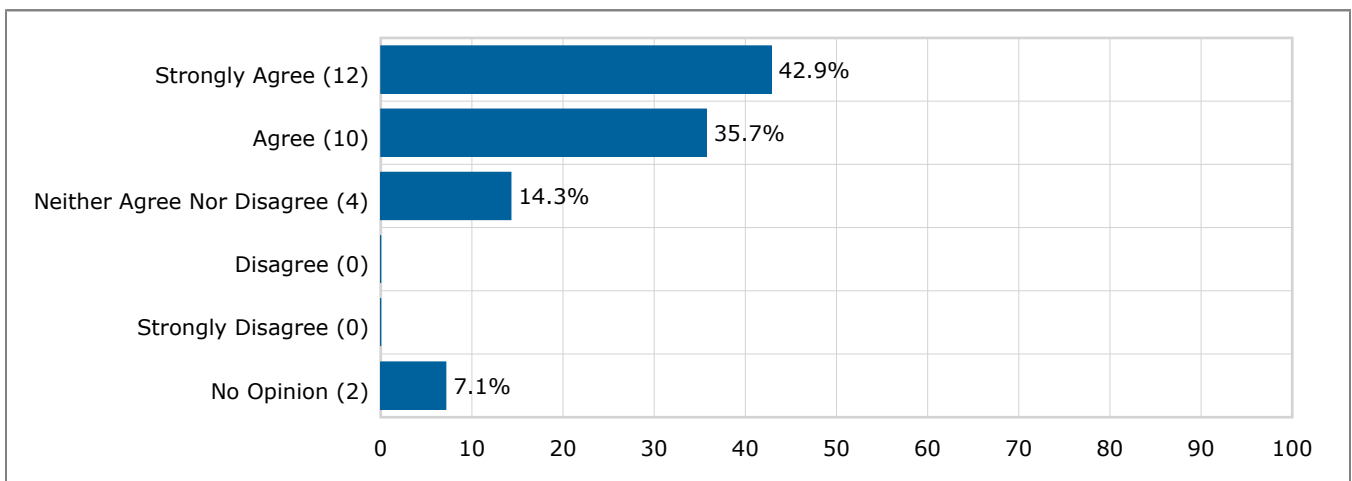

1. Class sessions helped me learn the course content.

% Positive/Negative	Mean (SD)	Median	Response Count
89.3% Positive	4.44 ± 0.63 (Agree)	5 (Strongly Agree)	28 (100.00%)

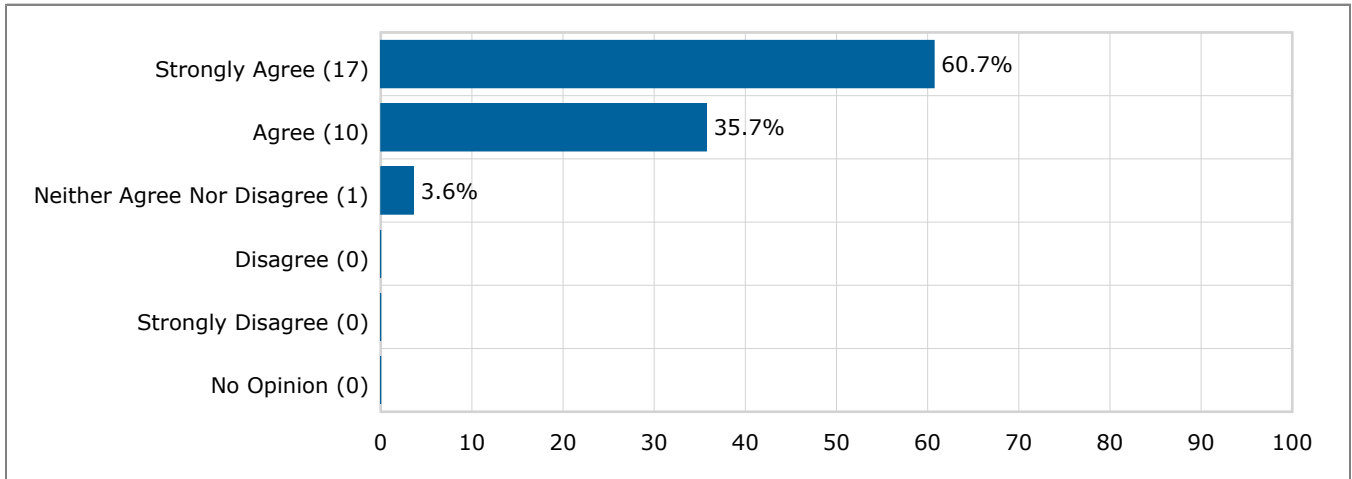

2. Course readings and other course materials helped me learn course content.

% Positive/Negative	Mean (SD)	Median	Response Count
78.6% Positive	4.31 ± 0.72 (Agree)	4 (Agree)	28 (100.00%)

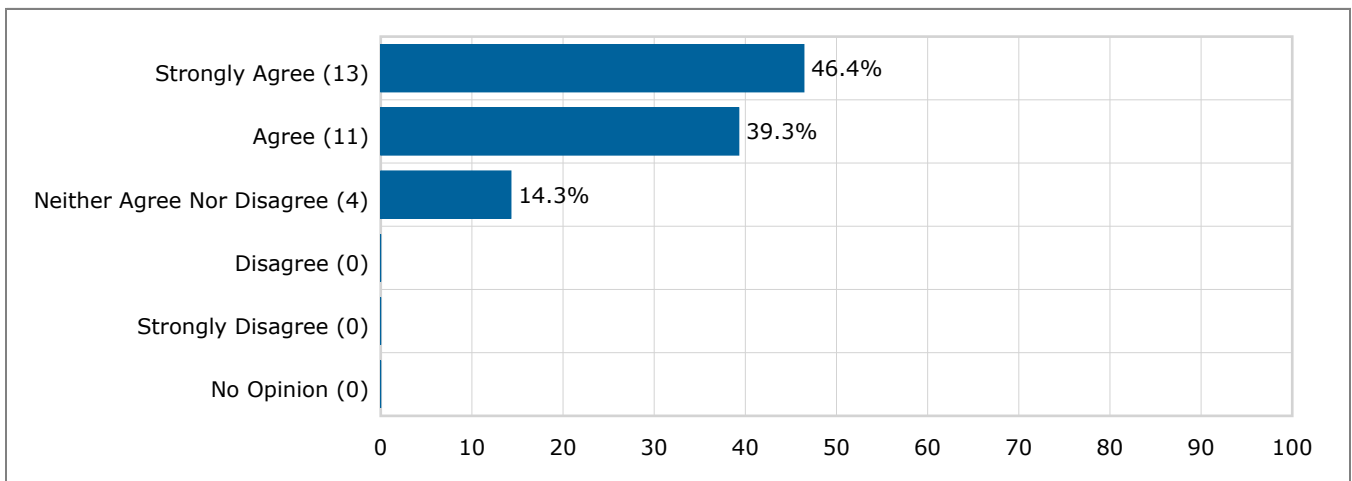

3. **Assignments** (homework, projects, etc) helped me learn the course content.

% Positive/Negative	Mean (SD)	Median	Response Count
96.4% Positive	4.57 ± 0.56 (Strongly Agree)	5 (Strongly Agree)	28 (100.00%)

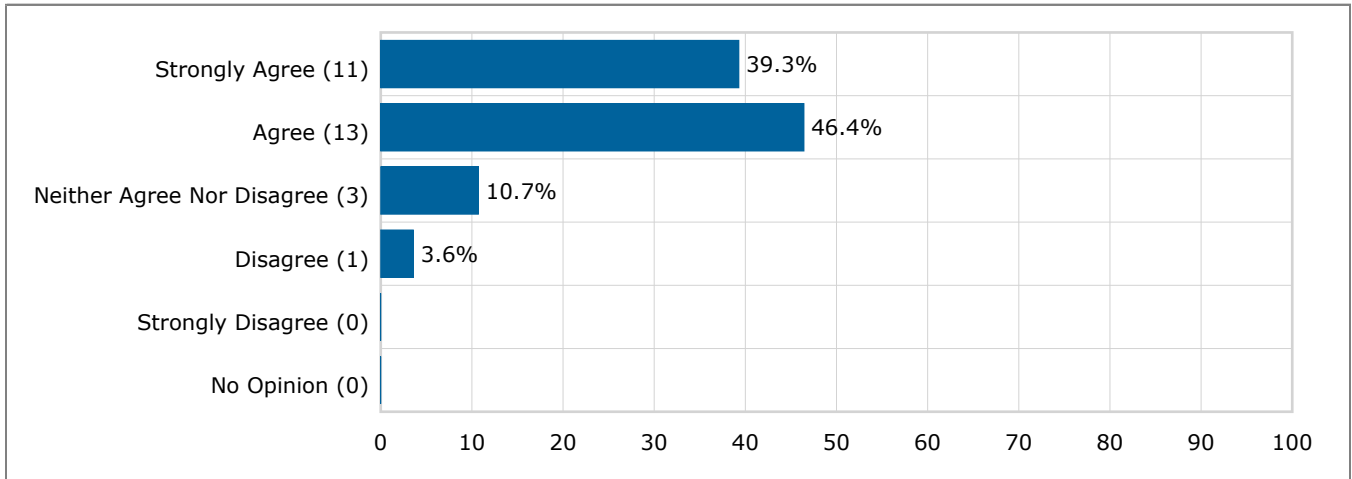

4. The course **developed** my **appreciation** of and **skills** for the subject.

% Positive/Negative	Mean (SD)	Median	Response Count
85.7% Positive	4.32 ± 0.71 (Agree)	4 (Agree)	28 (100.00%)

5. The course was **intellectually stimulating and engaging**.

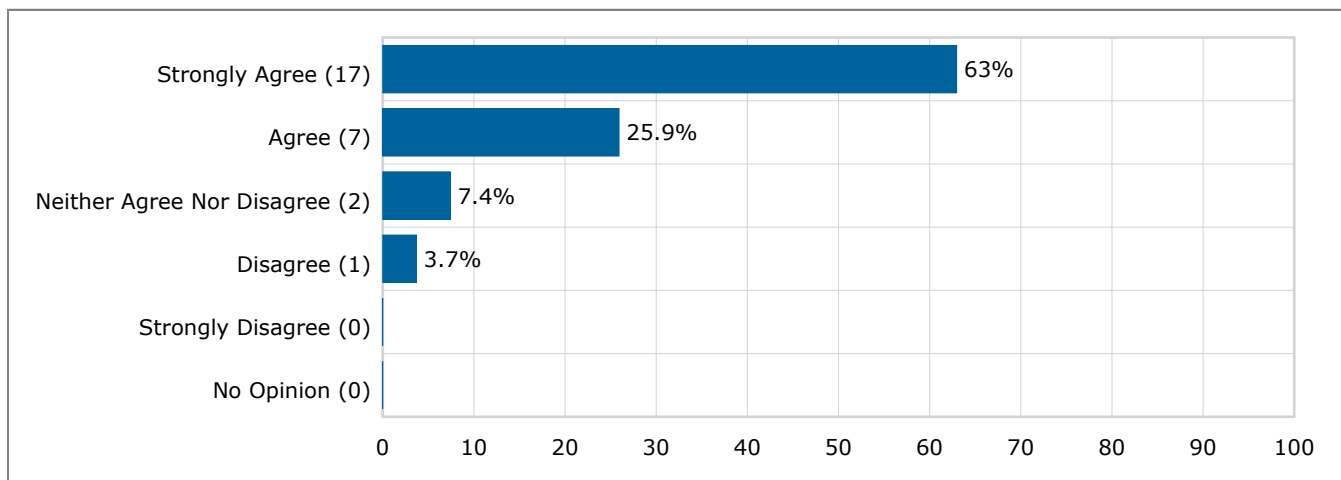

% Positive/Negative	Mean (SD)	Median	Response Count
85.7% Positive 3.6% Negative	4.21 ± 0.77 (Agree)	4 (Agree)	28 (100.00%)

Course Structure

6. The instructor effectively communicated **course goals**, learning **outcomes**, and **expectations**.

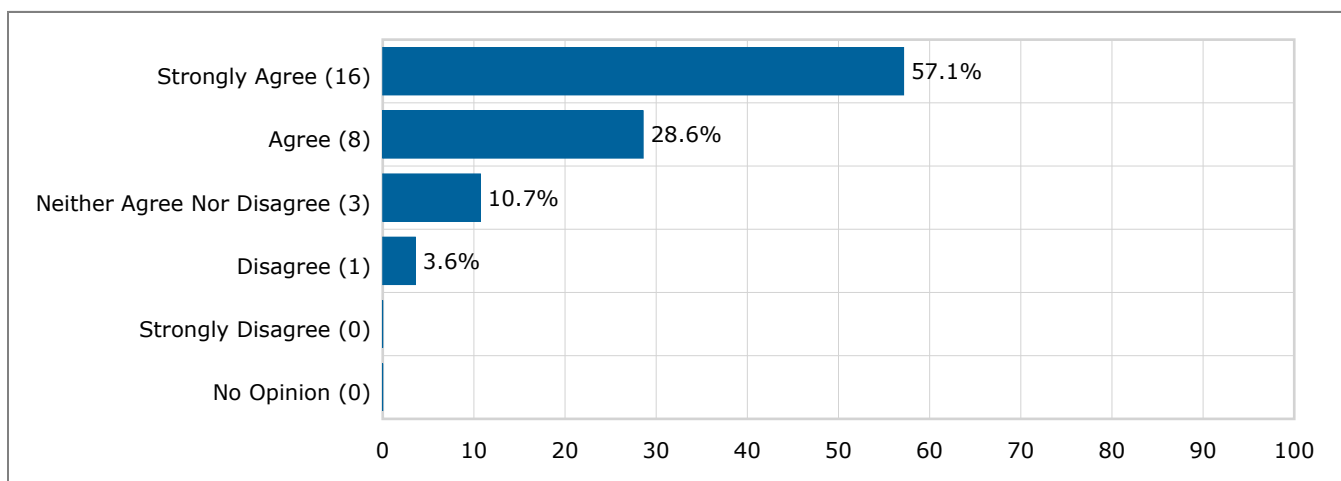

% Positive/Negative	Mean (SD)	Median	Response Count
88.9% Positive 3.7% Negative	4.48 ± 0.79 (Agree)	5 (Strongly Agree)	27 (96.43%)

No Response: 1

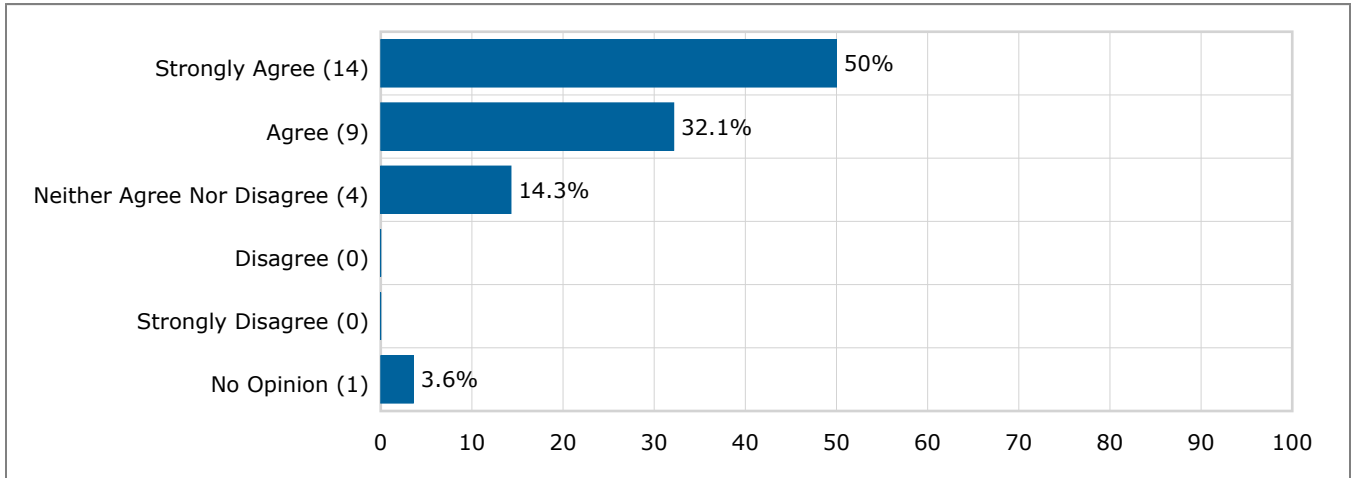

7. **Exams and other assessments** (essays, projects, etc) were an appropriate measure of course learning outcomes.

% Positive/Negative	Mean (SD)	Median	Response Count
85.7% Positive 3.6% Negative	4.39 ± 0.82 (Agree)	5 (Strongly Agree)	28 (100.00%)

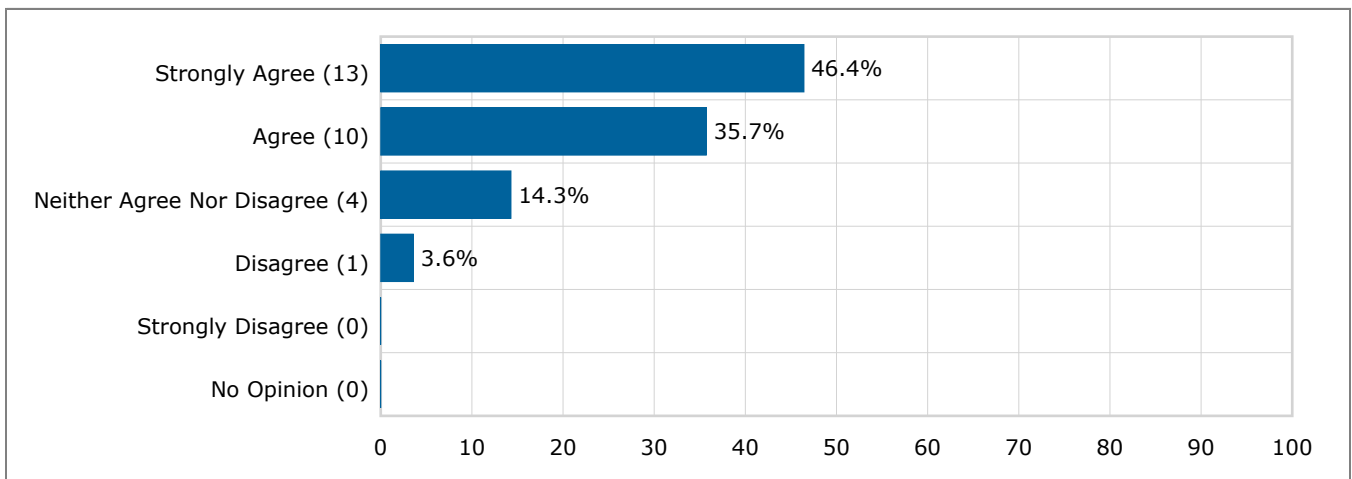

8. I received **timely and helpful feedback** in this course.

% Positive/Negative	Mean (SD)	Median	Response Count
82.1% Positive	4.37 ± 0.73 (Agree)	5 (Strongly Agree)	28 (100.00%)

9. The instructor incorporated **teaching methods** that helped me learn.

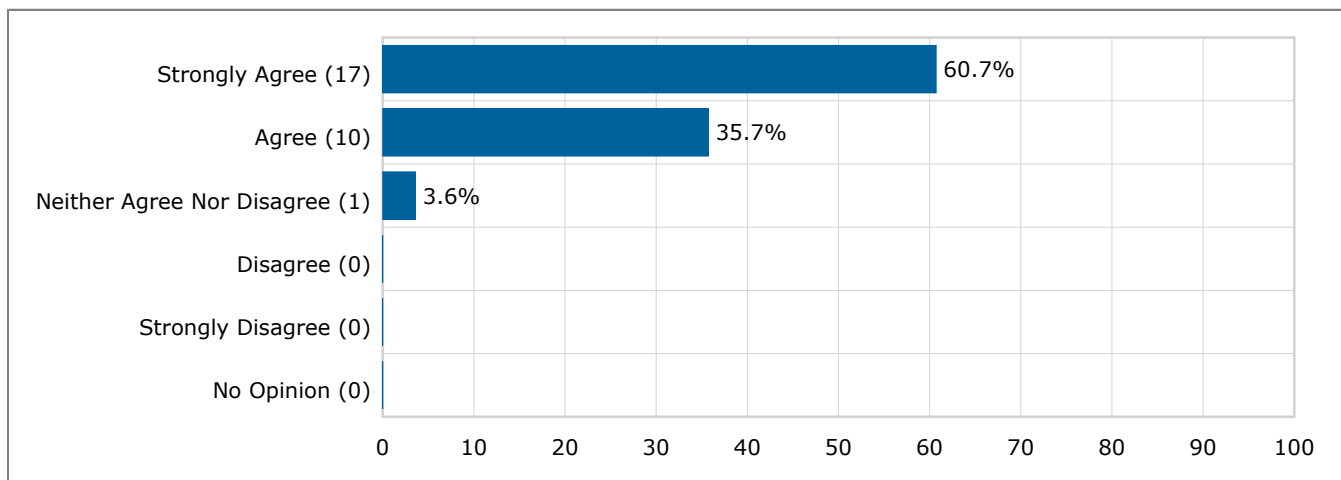

% Positive/Negative	Mean (SD)	Median	Response Count
82.1% Positive 3.6% Negative	4.25 ± 0.83 (Agree)	4 (Agree)	28 (100.00%)

Class Environment

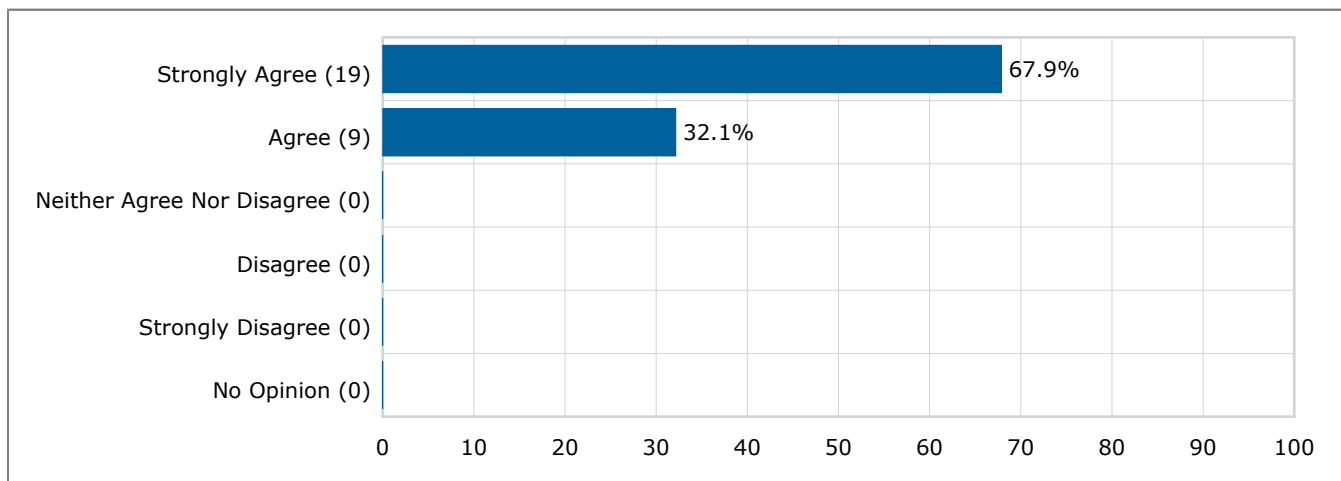

10. There were sufficient **opportunities offered for me to get help** when needed (e.g. established office hours, discussion section, discussion board, etc).

% Positive/Negative	Mean (SD)	Median	Response Count
96.4% Positive	4.57 ± 0.56 (Strongly Agree)	5 (Strongly Agree)	28 (100.00%)

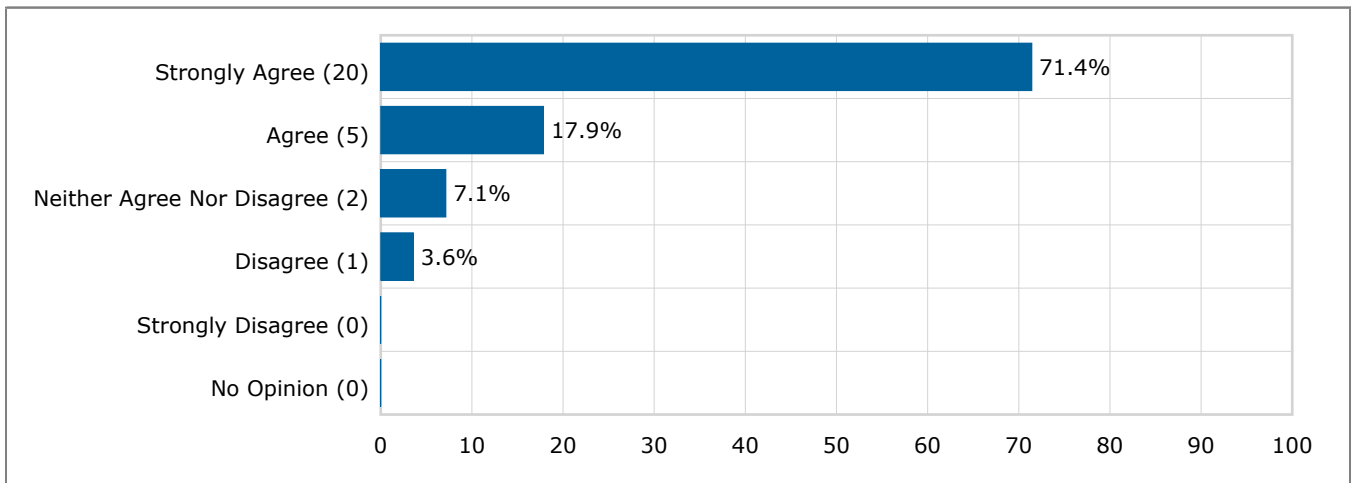

11. The instructor **arrived on time** to class sessions and office hours.

% Positive/Negative	Mean (SD)	Median	Response Count
100% Positive	4.68 ± 0.47 (Strongly Agree)	5 (Strongly Agree)	28 (100.00%)

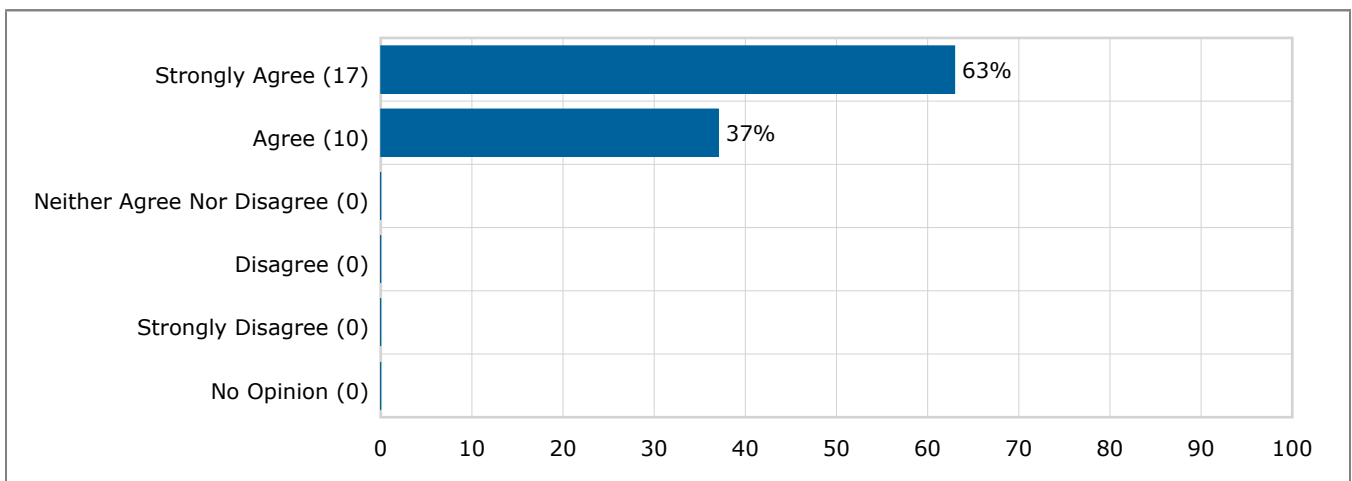

12. The instructor created a **welcoming and supportive learning environment** that valued and supported students from all backgrounds and identities.

% Positive/Negative	Mean (SD)	Median	Response Count
89.3% Positive 3.6% Negative	4.57 ± 0.78 (Strongly Agree)	5 (Strongly Agree)	28 (100.00%)

13. The instructor explained what constituted cheating in this course and emphasized the importance of **academic integrity**.

% Positive/Negative	Mean (SD)	Median	Response Count
100% Positive	4.63 ± 0.48 (Strongly Agree)	5 (Strongly Agree)	27 (96.43%)

No Response: 1

Please describe any specific aspects of the course and/or teaching practices that your instructor used that...

14. Please describe any specific aspects of the course and/or teaching practices that your instructor used that particularly helped you to engage with the material, learn the material, and/or develop your own critical perspectives on the material.

Allowing room for questions

Asks students if they understand the material or if they're any concerns to address.

GOOD SLIDES

homework was helpful

I actually really liked Professor Kumar and how he taught. I think some of the concepts themselves were a little hard to understand, especially the Gaussian concepts for me, but he really did a great job explaining. He also made sure that homework aligned with the tests, which I really did appreciate.

insightful class feedback and where to improve

It being a small class made the material more engaging.

nothing specific

The exams and homeworks were very straightforward and fair. Not as rigorous as other summer classes, and the lectures were well-paced. The homeworks provided plenty of practice problems on top of required problems, which I really liked

The homework was a great way to engage with the material

The instructor explained concepts clearly and was willing to break down difficult topics using examples that made the material easier to understand. Class time felt organized, and I appreciated that questions were welcomed and answered thoughtfully rather than rushed through. The pacing of the course allowed enough time to actually absorb the material instead of just moving through slides. I also found it helpful when the instructor connected the course content to real-world applications, which made it easier to see why the material mattered.

15. Please describe any specific aspects of the course and/or teaching practices that your instructor used that were less helpful for your learning. Optionally you may offer constructive suggestions that might improve their effectiveness.

DISCUSSION WAS NOT HELPFUL

I don't have major criticisms.

Moving a bit too fast

NA he was amazing

need more examples of how to solve problems.

nothing specific

Sometimes the lectures weren't comprehensive representations of the content in homework and exams

This is because I mostly relied on the podcasts to learn (since I'm not currently in SD), but sometimes the podcasts were cut short, or just not working. Also had some issues getting the .pdf of the lectures, and I do sometimes wish he posted his lecture notes.

Understanding more of what would be the ask or expectations for each quiz. I believe the majority of the class is retaking this course since they only show up on exam days. So it's hard to compete with my quiz grades since I'm trying to learn the material and the quiz has the same material but asked or testing ways I hadn't been asked or questioned to do before. So any curve isn't actually that helpful

16. Please describe any specific aspects of the course and/or teaching practices that your instructor used that created or interfered with a welcoming learning environment that valued and supported students from all backgrounds and identities.

Asking clarifying questions

asks questions to all students

He was very patient with students' questions, and took the time to backtrack in lecture to ensure everyone was understanding the material

HE WAS WELCOMING

made effort to remember every student

nothing specific

The instructor created a respectful classroom environment where students felt comfortable participating and asking questions without fear of judgment. Different viewpoints were welcomed during discussions, and the instructor was approachable both during and outside of class, which made it easier for students to seek help when needed. Overall, the classroom felt inclusive and supportive of all students.

Yes

Instructor Custom Questions

17. How would you describe the teaching skills of the instructor?

amazing i would consider myself lucky to have a class taught by you again

amazing, caring, attentive, listened to his students

Great. He's really attentive to his students while also trying to teach more than just the subject curriculum. Sometimes I feel like he was slower on easier topics while faster on harder ones, but again, nothing he should really change since he was just keeping the pace for students in class.

HE EXPLAINS WITH DETAIL

His accent was a bit too thick at times and I was unable to understand him. Also, he would cold-call on people to answer questions that weren't asked very clearly

I think he did great. Especially for it being his first time. I do believe the course was very fast where I didn't feel like I had enough time to grasp each concept, but it was a summer course so that would be expected

I think the instructor taught the concepts and problems in an understandable way, where I could both follow what we were getting taught and why it was used in the machine learning setting. The homework was also very informative and cemented the knowledge.

makes sure people who asks questions understand the solution

nothing specific

Pretty good.

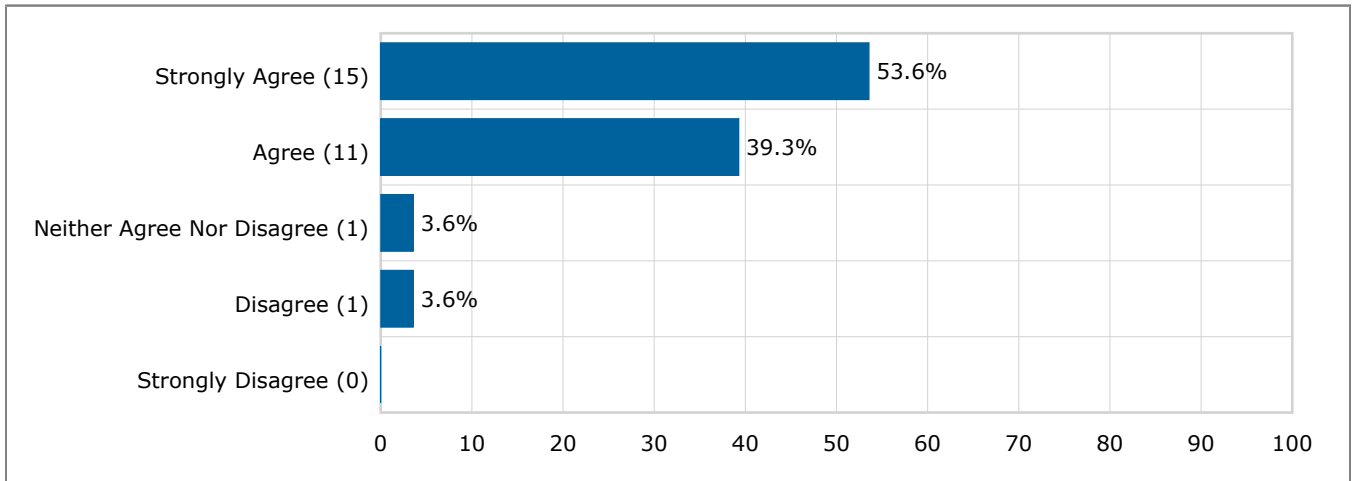

The instructor demonstrated strong teaching skills throughout the course. They had a clear command of the subject matter and were able to present complex information in a way that was accessible and easy to follow. Their communication style was clear and organized, which made lectures easy to follow and take notes on. They were also responsive to student questions and adjusted their explanations when something needed further clarification. Overall, I found their teaching approach effective and would say they were skilled at helping students understand and engage with the material.

Very good

Very good.

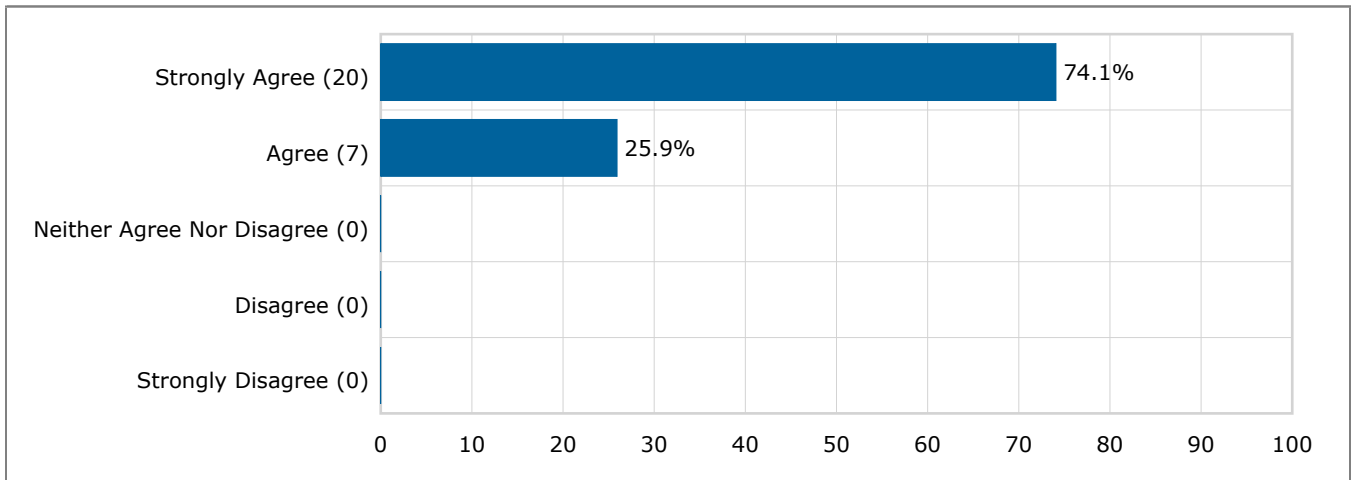

18. You found the instructor prepared for the lectures and delivered the subject material coherently.

% Positive/Negative	Mean (SD)	Median	Response Count
92.9% Positive 3.6% Negative	4.43 ± 0.73 (Agree)	5 (Strongly Agree)	28 (100.00%)

19. Instructor was knowledgeable enough about the subject material.

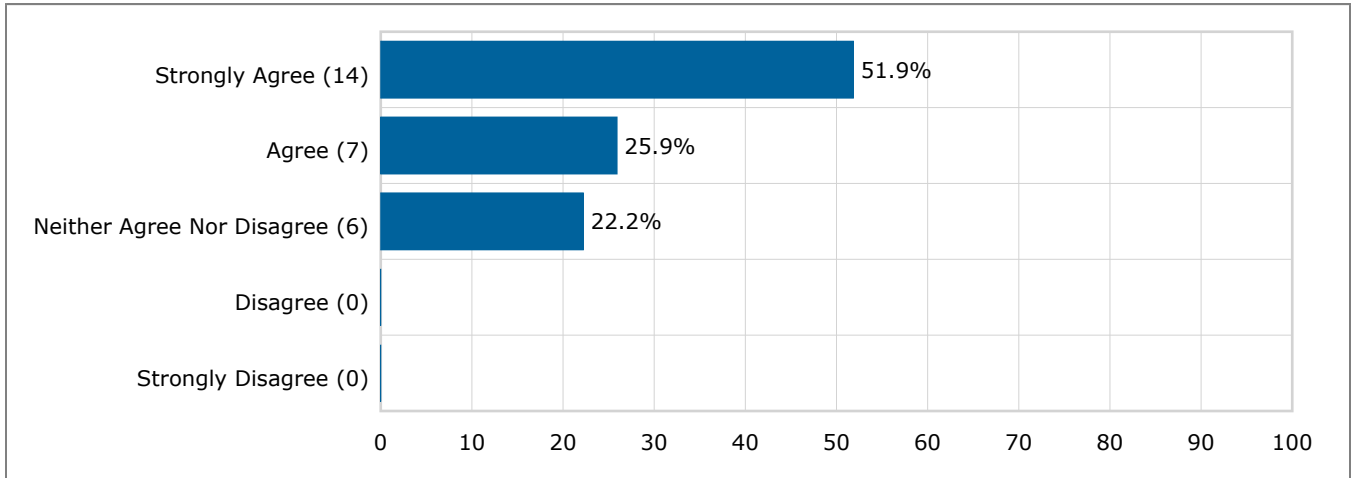

% Positive/Negative	Mean (SD)	Median	Response Count
100% Positive	4.74 ± 0.44 (Strongly Agree)	5 (Strongly Agree)	27 (96.43%)

No Response: 1

20. Interaction with the instructor helped me understand the material.

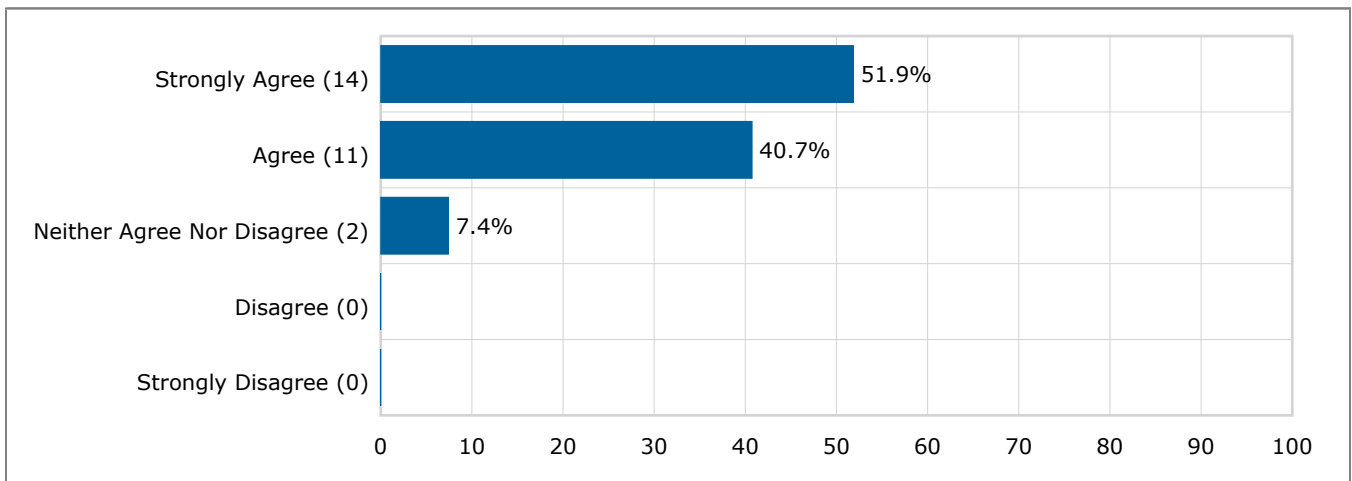

% Positive/Negative	Mean (SD)	Median	Response Count
77.8% Positive	4.3 ± 0.81 (Agree)	5 (Strongly Agree)	27 (96.43%)

No Response: 1

21. Overall experience in the course has sparked my curiosity in the field of machine learning.

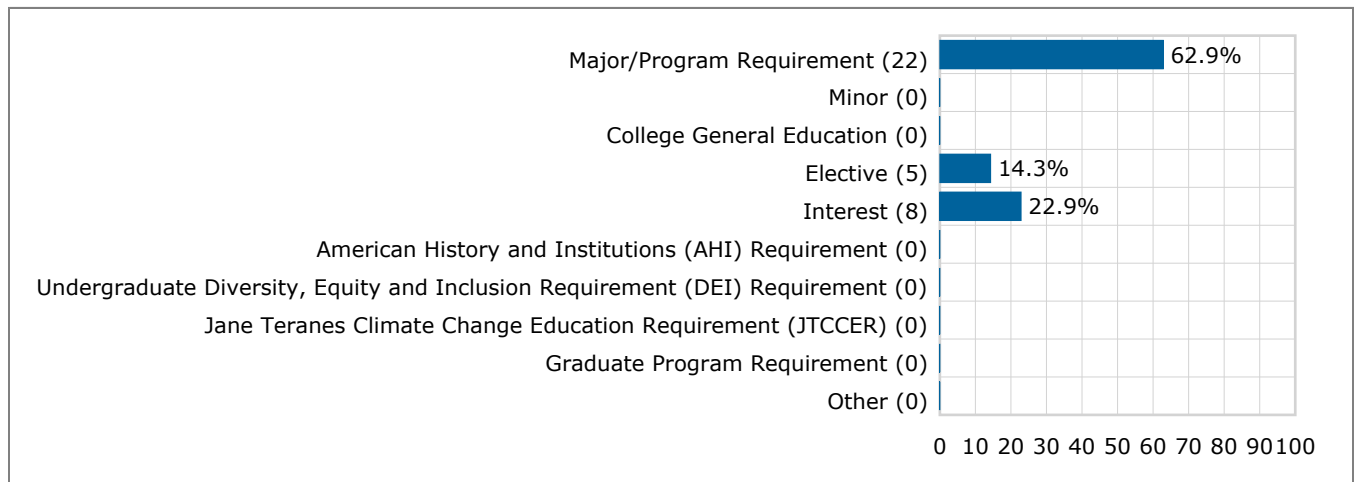

% Positive/Negative	Mean (SD)	Median	Response Count
92.6% Positive	4.44 ± 0.63 (Agree)	5 (Strongly Agree)	27 (96.43%)

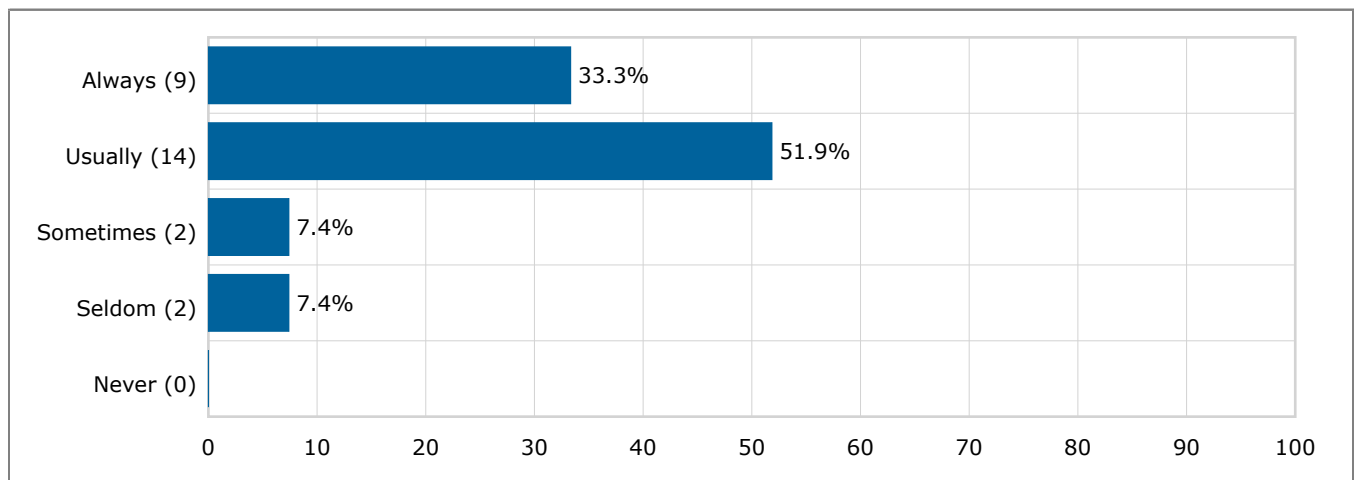

No Response: 1

Student Participation

22. What was/were your reason(s) for taking this course?

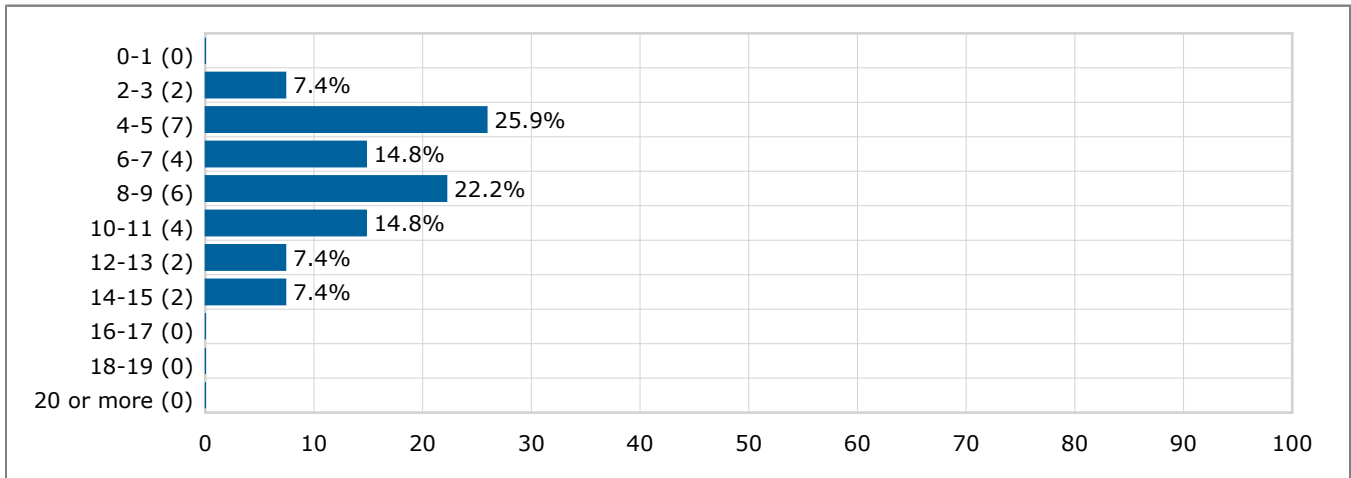

23. How often did you attend class and/or engage with course materials?

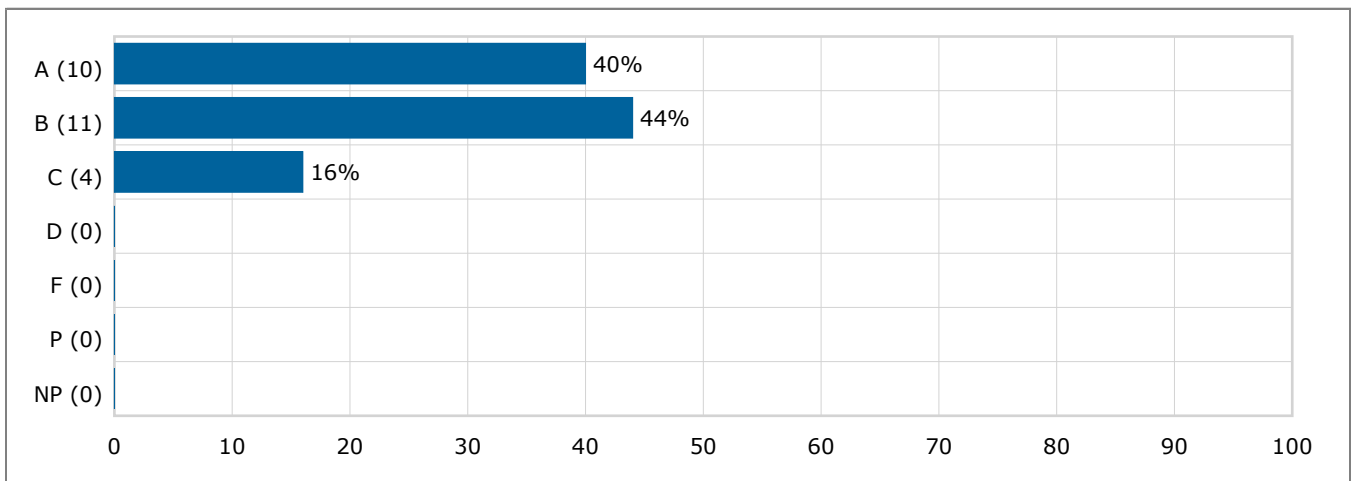

No Response: 1

24. Hours per week of work outside of class

No Response: 1

25. Expected grade in the course

No Response: 3

Additional Feedback

26. Is there anything else you would like to share about your experience in the course?

Like I mentioned earlier, there is an expected curve at the end of the course, I have some doubts for it's effectiveness since the majority (65-70%) if the students attending this course only show up for exams and are retaking this course (from those I've asked), so the difference in homework and the slides with the quiz/exams have been difficult, some topics we are questioned conceptually and the other computationally, then on the exam, it's flipped and taken to the next level. Pretty difficult.

nothing specific

One last thing I forgot to mention. He made sure to get assignments graded quickly, which was absolutely amazing. He did sort of push out preps or updates to quizzes a little late, though. Other than, I sincerely appreciated the structure of this class and Professor Kumar!

SO QUICK TO LEARN IN SUMMER SESSION BUT OVERALL THE CONTENT IS INTERESTING AND IT LOOKS LIKE THE INSTRUCTOR IS KNOWLEDGEABLE

The lectures were good but I wish the lectures had example problems. After lecture when I did the homeworks sometimes I felt completely lost when trying to implement concepts mathematically because I had never seen something like that in lecture before. I only really learned the over arching concepts and important notes or information. And when I mean examples I more mean we have an algorithm, how do we solve this particular problem with this algorithm. What does this algorithm look like in practice.

This was a very pleasant and fair class and I'm glad it was educational without being overbearing, and everything was pretty straightforward and succinct.
